

# Welcome to the Tension

## Week 1- Honor Discussion Guide

---

The tension between the established culture and the one rising up can result in mutual disrespect and lack of honor. Jesus lived to honor and value others of all ages and generations. When we honor others across generations it builds trust. When we honor and trust each other, we work better together and accomplish great things.

1. In what ways do you consider yourself part of the younger generations? The older generations?
2. What are some of the differences between honor and respect? What are some similarities?
3. Why do you think God views honor and respect as very important principals?
4. **Read Romans 12:10.** When you consider your interactions with the “other” generations, what would it look like to “outdo one another” in showing honor?
5. Where have you seen trust affect the results of a situation?
6. Final Thought: The Bible tells us to honor each other. When we honor, respect, and trust others we can accomplish more in our workplaces, in our homes, and in the mission to reach people for Jesus! How can you and your group go above and beyond to show honor, respect, and trust this week?
